

COMMAND WITH CORE

Unify Military Operations with Real-Time
Asset Tracking & Tactical Intelligence.

Own the Information. Own the Advantage.

In the crucible of modern warfare, hesitation is not an option. Victory demands unflinching awareness and decisive command. ISC, in cooperation with Hubble Network, presents CORE – your unparalleled force multiplier for Real-Time Military Asset Management and Tactical Supremacy, seamlessly delivered via FTTH, Wireless, and Satellite Communications.

Take advantage of custom design, build, and operation of your proprietary Space Program with:

Engineered for Mission Success

CORE empowers your forces with a comprehensive suite of tools designed for the complexities of the modern battlefield. Achieve unparalleled clarity, control, and coordination.

UNIFIED FIELD COMMAND & ASSET MASTERY

Dynamic Asset Management: Real-time tracking & control of all field resources.

Resilient Command Links: Continuous satellite connectivity for mobile & stationary HQs.

ADAPTIVE & VERSATILE TECHNOLOGY

Tailored for All Corps: Flexible adjustments for diverse military branch requirements.

SEE FIRST, ACT FIRST

Tactical Visual Superiority: High-res cameras, target ID & geolocation for actionable intelligence.

Proactive Threat Neutralization: Long-range enemy detection & coordinated deterrence.

Anticipate & Act

Convert data into immediate battlefield advantage.

Amplify Your Force

Achieve more with integrated, intelligent systems.

Secure Your Personnel

Elevate force protection through superior intelligence.
